DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance: the present invention features a flash memory having a map block the map block comprising first mapping table containing a physical address allocated to a block of a plurality of blocks.

Closed reference prior art:

US 2003/0070035 (Wang) teaches The block mapping table 20 is used to manage the memory space of the second portion, mapping table comprises 191 sector entries 25 corresponding to each sector of the memory space 16A. Each sector mapping table entries 25 needs to comprise at least three fields for effectively managing each sector.

US 2004/0210706 (In et al) teaches method for managing flash memory wherein each of a plurality of blocks includes a predetermined number of pages, and a first mapping table is recorded in a first page of a first block, and a second table, in which the contents of the first mapping table are changed, is recorded in a second page of the first block.

However, none of the prior art of record teaches or discloses the features, as recited in the claims, specifically:

a second mapping table containing mapping information between the physical address and a logical address of each of the plurality of blocks in the first mapping table from which error blocks are excluded; and a third

mapping table in which most recent mapping information is written and processed by a specified value to minimize an update operation of the second mapping table.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
